Cow Sense College Guidelines!

HOW TO GET THE MOST OUT OF YOUR ONLINE TRAINING EXPERIENCE

With your paid registration for a Cow Sense College course, you are taking steps toward improving your knowledge of the Cow Sense program. The objective is to better assist you in making critical business decisions with your cow herd. You are also making an important investment of your time and money to reach that goal. Please take the time to read this document to help you get the most out of your Cow Sense College training course.

Homework - It is not mandatory that you do any work outside of the scheduled class times. However, we highly recommend that you review each day's topic before the next session. Training herds will be provided for you to work in so that you do not have to work in your own herd.

Class Environment – Since Cow Sense College courses are conducted online; the classroom is your home or office. Your classroom must be comfortable and free from distraction during each class session. We will not allow individual distractions to become class distractions. The class will proceed as scheduled so it will be your responsibility to control your classroom environment.

Scheduling –

1. Log into to the Cow Sense College Conference via UberConference.com between 5 to 10 minutes before class begins. ***Please log on early***
2. Have your phone available to receive the conference call 1 to 2 minutes before the scheduled start of each class session. Most phones these days have a mute feature. We ask that this be turned on after the opening introduction and role call. This way you can hear what the instructor is saying, but any background noise on your end will not disturb the class. It would need to be turned off to ask questions. ***Please note that if you have any trouble connecting through UberConference.com or on the Conference Call number, please call 800-584-0040.***
3. Each session will begin on time, as scheduled. Because of scheduling and preparation constraints, if you miss part or all of a scheduled class session (without notification before hand) you will **NOT** be able to make up that session later for any reason.

Conducting Class – Because three or more people will be taking part in a conference call, the instructor will stop between topics to take questions before proceeding to the next topic. Questions and discussion will be limited each day to the topics scheduled for that class session.
