

The Product Suite

The Cow Sense® line of products is actually a buffet of herd management tools. Pick and choose from the buffet... for the tools you need today. No need to pay for unneeded features. However you can feel confident that as your needs grow, you can return and purchase any additional products as necessary.

As some customers require many of the products from the get go, we have bundled the most popular products together in a Cow Sense Suite package. If you have need for many of these products, significant cost savings is offered through this pricing!

The Suite Deal includes:

- **Cow Sense Purebred**
- **Cow Sense Cow COMM**
- **Second Site Licenses for all products**
- **VBS Direct Technical Support Plan**
- **Cow Sense Sale Manager**
- **Cow Sense Premium Interface Component (PIC)**
- **User's Guides for: Cow Sense, Sale Manager, Cow COMM and PIC**

Suite Pricing reflects a 31% discount on software.

That truly is ...a Suite Deal!
